Smart Eye Camera

### Organizations Involved:

- The 128th Annual Meeting of the Japanese Ophthalmological Society

On April 18, 2024, OUI Inc. participated in the 128th Annual Meeting of the Japanese Ophthalmological Society with presentations by CEO Dr. Shimizu, researcher Dr. Rohan, and engineer Mr. Yoshitsugu, as well as engaged in equipment exhibitions.

Dr. Shimizu presented, on stage, about the systematic survey results of the domestic and international use of smartphone attachment slit-lamp microscopes. It highlighted significant improvements in accessibility and efficiency in medical settings, attracting considerable attention. Moreover, Mr. Yoshitsugu discussed the development of AI utilizing machine learning and semantic segmentation combined with handheld slit-lamp microscopes, addressing how AI can enhance the accuracy of ophthalmic diagnoses and outlining future prospects. Dr. Rohan reported on the outcomes of a school screening project in Nepal during a poster session, emphasizing the importance of portable diagnostic equipment in underserved areas.

Lastly, OUI Inc. set up an exhibition booth where we interacted with numerous doctors from both Japan and abroad, receiving a lot of positive feedback from participants about our Smart Eye Camera.

Moving forward, OUI Inc. is committed to continuing our efforts to develop technologies that shape the future of ophthalmic medicine. As a step towards further innovation, we will strengthen collaborations with medical professionals worldwide and advance the development of revolutionary ophthalmic diagnostic models using our Smart Eye Camera!

## **LET'S COLLABORATE! FEEL FREE TO CONTACT US!**

Through our Smart Eye Camera, OUI Inc.'s vision is to reduce blindness in the world by 50% by 2025 by delivering appropriate diagnoses to patients who have not been able to receive eyecare.

So far, we have conducted various pilot projects in more than 20 countries around the world, including Asia and Africa, in cooperation with local ophthalmologists, NGOs, medical institutions, and international organizations.

The internationally recognized CE marking is expected to further increase the recognition and confidence in the Smart Eye Camera, not only in the European market but also in Asia and Africa.

In our current corporate stage, the pilot projects are necessary to understand the obstacles of developing countries where our product may flourish to help the maximum number of people in need.

That is why we ask for help, offer for future collaboration from all of you, our possible partner, to get the Smart Eye Camera delivered all across the globe to get the proper diagnoses and treatment that all people deserve!
